

PRESS RELEASE

The Educare Foundation prepares first test product while teaching kids to think creatively to benefit communities.

Harvard Illinois August 10, 2010 - The Educare Foundation, Inc. [a registered 501c3 non profit] in partnership with Kids of The ARK are preparing to test-launch their first product through an innovative educational project teaching kids to think creatively and develop solutions to help their communities. "Ice Pups - Pupsicles" will be the first of various products developed for educational purposes to reach a national market.

Through creative development, hard work, and determination, the combined vision of The Educare Foundation and The ARK, partnering with senior and business mentors, hopes to show children how ideas from seed stage can become an asset to their community. "Ice Pups - Pupsicles", especially for dogs and other four-footed loved ones, will come in several flavors, are a healthy, refreshing snack, and perfect for enjoying outdoors on a hot day! "Ice Pups - Pupsicles" will certainly make your pet cool, plus benefit the community too, if things go as planned! A purchasing program, www.MarketMissions.Com also developed by The Educare Foundation, Inc. and The ARK, will allow sales in each geographical area to benefit charities and missions in that same geographical area.

About The Educare Foundation, Inc. - The Educare Foundation, Inc., with its mission being "Educating Hearts to Care" was founded in 1992 and incorporated as a 501c3 non profit in 1994. Since its mission was to teach kids to develop solutions and to be willing to work hard to make their "dreams" and "solutions" happen, it didn't fit for them to compete with crisis shelters and other social services for grants and community funds. So, they set out to earn money by working hard at many jobs to eventually secure a building space.

Fourteen years of working, planning, and many stories later, The Educare Foundation finally found a home at The ARK in Harvard IL to begin incubating ideas to make a difference in communities. The ARK is a "modern one room schoolhouse" and family support center, striving for excellence in education and promoting principle-centered ideas through drama and other educational missions. Both The Educare Foundation, Inc. and The ARK operate strictly on donations, with 100% going to support children's educational and innovative programs.

With ideas coming faster than work opportunities or funds to afford the new projects, The Educare Foundation is seeking senior mentors, philanthropists, benefactors, partners, marketers, and business assistance to advance the vision, and produce/market the product(s) nationally. The Educare Foundation, Inc. is a non profit in good standing, and donations are tax deductible as allowed by law. More information on the missions, or receiving samples, may be obtained at www.EducareMissions.Org or at The ARK's web site www.ArkHome.Org. Individuals or companies interested in graciously supporting this vision through financial or other resources, are asked to send Letters of Intention by U.S. Mail to:
